

**AMENDMENT TO SUBSTITUTE SPECIFICATION**

Page 13, last paragraph, the previous amendment is hereby withdrawn and the last paragraph is amended to read as follows:

--

What makes the first aspect of the invention special is that the above-mentioned panels 2 are provided, at least on two of their edges 3-4 or 5-6 and preferably on all four edges 3 to 6, near the top side, with a part from which an amount of material has been cut-away and removed (a cut-away portion), which part preferably each time is in the form of a bevel 15. ~~The term "bevel" hereinafter is intended to be a generic description for a part cut away and removed from the respective edge of the panel leaving a slanted surface.~~ --
